PROFILE SUMMARY

Results-driven Data Engineer with experience in DataOps, cloud infrastructure, enterprise application support, and platform migrations. Proven track record of delivering highly available and scalable systems through production migrations, incident resolution, data quality initiatives, and cloud governance.

Experienced in AWS, Microsoft Azure, Linux, Elasticsearch, NGINX, SQL, IAM, Data Validation, ETL/ELT, and Production Support. Skilled in root cause analysis, infrastructure troubleshooting, cloud access management, system administration, and data operations supporting enterprise-scale platforms.

CORE COMPETENCIES

Data Engineering • DataOps • ETL/ELT • Data Validation • Data Quality • Data Transformation • SQL • BigQuery • Elasticsearch • Cloud Computing • AWS • Microsoft Azure • Linux Administration • NGINX • SSL/TLS • IAM • Access Management • Incident Management • Problem Management • Change Management • Root Cause Analysis • Production Support • Monitoring • Git • CI/CD • Bash Scripting • REST APIs • Jira • Agile Methodologies

KEY ACHIEVEMENTS

- Successfully migrated DDS Staging and Production environments to modern infrastructure with near-zero downtime.
- Led application, API, Elasticsearch, SSL, and NGINX migration activities across multiple environments.
- Resolved critical production incidents through root cause analysis and proactive monitoring.
- Improved platform stability and operational efficiency through automation, validation, and issue remediation.
- Managed cloud access governance and security compliance activities across AWS and Azure environments.
- Supported enterprise DataOps operations for global consumer goods platforms.

TECHNICAL SKILLS

Programming Languages:

Python, SQL, JavaScript, PHP, Bash

Cloud Platforms:

Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform (GCP)

Data Engineering:

DataOps, ETL/ELT, Data Validation, Data Quality, Data Transformation, BigQuery, Elasticsearch

Infrastructure & DevOps:

Linux, NGINX, SSL/TLS, Git, CI/CD, Monitoring, Bash Scripting

Operations & Governance:

IAM, Access Management, Incident Management, Problem Management, Change Management, Root Cause Analysis, Production Support

PROFESSIONAL EXPERIENCE

ACCENTURE

(February 2024 - Present)

Data Engineering Analyst

Technology & Digital Services (DDS)

March 2024 - Present

- Led the successful migration of DDS Staging and Production environments to new infrastructure platforms.
- Managed Linux servers, NGINX, SSL certificates, Elasticsearch clusters, APIs, and web applications.
- Executed deployment planning, rollback validation, cutover activities, and post-migration verification.
- Performed application deployments, environment configuration management, and platform maintenance.
- Investigated and resolved production incidents through root cause analysis and corrective actions.
- Collaborated with development, infrastructure, and business teams to ensure system reliability and service continuity.
- Supported enterprise search platforms and data services running in cloud-based environments.

DataOps | Global Consumer Goods Corporation

March 2025 – June 2026

- Performed end-to-end data validation, cleansing, transformation, and reconciliation activities supporting enterprise customer data platforms.
- Investigated batch and streaming data anomalies to improve data quality and downstream processing reliability.
- Conducted root cause analysis of data inconsistencies across Elasticsearch, BigQuery, and upstream systems.
- Supported production data operations, ensuring data accuracy, completeness, and availability.
- Executed profile reloads, production support activities, and issue remediation for customer data platforms.

Cloud Access Management

February 2024 – Present

- Provisioned and governed access across AWS, Azure, and enterprise platforms.
- Managed IAM requests, role assignments, access reviews, and compliance requirements.
- Ensured adherence to security policies, least-privilege principles, and audit controls.
- Supported cloud governance and identity management operations.

Information Security Dashboard (ISD)

February 2024 – Present

- Resolved security dashboard reporting issues by identifying and correcting incomplete or inconsistent security data.
- Improved compliance reporting accuracy through data validation and remediation activities.
- Collaborated with security teams to investigate and resolve data quality issues affecting reporting visibility.

Jira Support – Global Support

February 2024 – Present

- Managed and resolved production support tickets across multiple enterprise platforms.
- Conducted incident triage, investigation, and resolution while meeting SLA requirements.
- Maintained operational documentation, knowledge base articles, and support procedures.
- Identified recurring issues and implemented process improvements.

WBRIDGES | SOLAIRE RESORT & CASINO

(September 2023 - February 2024)

IT Administrator

- Managed Windows and Linux server administration, patching, and endpoint security.
- Administered Active Directory, user provisioning, and access controls.
- Resolved 150+ infrastructure and endpoint incidents while maintaining SLA targets.
- Performed backup monitoring and disaster recovery validation.

THE ADVENTUS CONSULTANT

(November 2022 - September 2023)

Project Coordinator

- Coordinated delivery of multiple projects across technical teams.
- Managed stakeholder communications, schedules, and project risks.
- Produced status reports and tracked project milestones.

ACACIASOFT

(July 2022 - January 2023)

Software Engineer

- Developed and maintained web applications using PHP, JavaScript, SQL, and REST APIs.
- Participated in code reviews, testing, and deployment activities.
- Reduced post-release defects through improved testing practices.

FREELANCE

(May 2021 - September 2023)

WordPress Developer | Website Developer

- Developed and maintained responsive websites for multiple clients.
- Improved website performance, SEO, and uptime.
- Managed hosting, backups, and security updates.

EDUCATION

CAVITE STATE UNIVERSITY (2017 - 2022)

Bachelor of Science in Computer Science

IMUS COMPUTER COLLEGE (2012 - 2014)

IT - Computer Technician
